

Je ne veux pas travailler

I do not want to work

The diagram illustrates the word-by-word translation of the French sentence "Je ne veux pas travailler" into the English sentence "I do not want to work". Each word in the French sentence is connected to its corresponding word in the English sentence by a straight line. The connections are as follows: "Je" connects to "I", "ne" connects to "do", "veux" connects to "want", "pas" connects to "not", "travaille" connects to "work", and "r" connects to "to". The lines for "ne" and "veux" cross the lines for "pas" and "travaille", and the lines for "veux" and "pas" cross each other, creating a complex web of intersections.
